**Re: GE Healthcare *Ex Parte*
ET Docket Nos. 04-186 and 02-380**

Dear Ms. Dortch:

On June 3, 2008, Neal Seidl, Wireless System Architect, GE Healthcare, and David Davenport, Electrical Engineer, GE Global Research, spoke by phone with Julius Knapp, Bruce Romano and Alan Stillwell of the Commission's Office of Engineering and Technology. The call focused on GE Healthcare's May 6, 2008 *ex parte* filing in the TV White Spaces proceeding, ET Docket Nos. 04-186 and 02-380. During the call, Neal Seidl indicated that the spectrum mask proposed for TV channels 36, 37 and 38 by GE Healthcare in the May 6, 2008 *ex parte* was sufficient, in GE Healthcare's view, to protect licensed Wireless Medical Telemetry Service ("WMTS") operations in TV channel 37 from proposed portable TV White Space devices.

In accordance with Section 1.1206(b)(2) of the Commission's rules, this letter is being filed electronically with your office.

Sincerely,

Ari Q. Fitzgerald
Counsel to GE Healthcare
